Model Li2700QC SUPER PAC

- Patent Pending

DESCRIPTION

The new very compact and powerful Start Pac® lithium Li2700QC SUPER PAC (patent pending) utilizes our proprietary Quick Change technology combined with a lightweight 50 amp (28.5VDC) power supply. This 26 Volt portable complete all-in-one micro GPU allows for excellent engine starts as well as continuous power for powering up aircraft systems. This unit is a full 26VDC battery pack that will provide superior starts on all electrically-started turbine engines especially those aircraft with over voltage sensitivities such as the Eclipse 500, Phenom 100, Phenom 300, Agusta AW 139, Agusta AW109, and Sikorsky S-76. It has dual, redundant chargers with a total of 7 amps 5 output and a recharge time of approximately 4 hours. The SUPER PAC comes standard with the QC trolley and is an ideal alternative to larger traditional GPUs. *Not for battery charging.*

SPECIFICATIONS

- 31 amp hours @ 10 amp hour rate
- 2400 peak amps
- 71 Lbs./ 32 Kilos complete
- Dimensions: L 19.2" x W 7.5" x H 14", L 49cm x W 19cm x H 36cm
- Patent pending
- No sulfation issues
- QC Trolley
- Built-in chargers

POWER SUPPLY MODULE

- 28.5 Volt continuous
- AC Input: 110 Volts or 220 Volts
- DC Output: 0—50 Amps + 5%
- Continuous duty fan cooled
- Over-temperature protection
- Over-current protection
- Over-voltage protection
