

STANDARD FEATURES

- Integral 20A Breaker / Switch
- Only 20A Service Required
- Sealed Refrigerant System for unmatched reliability and performance
- 922-1231 CFM Air Movement System
- 50' Foot Input Power Cable (longer cable available upon request)
- Maintenance Free Tires

SPECIFICATIONS

Weight	463 Lbs. (210 kg)
Voltage Range	208-240 VRMS, 1Ø, 2 Wire Plus Safety Ground
Frequency	50 Hz + 10%
Compressor Rated Load	9.5 Amps
Safety Disconnect	Circuit Breaker ON/OFF
Refrigerant Type/Qty	R32 – 47.3 oz
Moisture Protection	IP24
Air Filter	Replaceable
Sound Level	76 dBa

Cooling BTU/Tons	24,000
Heating (Optional)	24,000
Airflow	800 CFM
Moisture Removal	5.2 Pints per Hour
Operating Conditions	Cooling or heating mode

START PAC® BOSS™ air system is a mobile HVAC unit that can deliver cool or heated air via its heat pump design. The BOSS air system runs at a very high efficiency due to its modern design.

Amp Draw	20.8 Amps
Voltage	208/230 Volts
Air Delivery Hose	12 in. in Diameter, 16 c long standard patent pending retractable ducting
Dimensions	L 76 in., W 42 in., H 46 in.
Max Sound Level	76 DB
AC power cord standard	50 Ft
Coal Mode	13.4
Operating Modes	Cool or Heat
Heat Mode	10.6
Weight	463 Lbs.
Optimal safety	4 Solid Wheels
